

Parallele Sortierung

Björn Rathjen Patrick Winterstein
Freie Universität Berlin

Proseminar Algorithmen, SS14

Outline I

Motivation

- Allgemein
- Bezug aufs Fach

Vorraussetzungen

- Komparator
- 0,1-Prinzip

Sortiernetzwerk

- Aufbau
- Sortieren im Sortiernetzwerk

Laufzeit

- Herleitung
- Vergleich mit Software sortieren

Fazit

- Geschwindigkeit vs Variabilität
- Hardwareaufwand vs Softwareaufwand

Inhalt zusammenfassen

Ausblick

- Hypercube
- Anhang

Basic Ideas for Proofs/Implementation

Example

- ▶ 2 is prime (two divisors: 1 and 2).
- ▶ 3 is prime (two divisors: 1 and 3).
- ▶ 4 is not prime (three divisors: 1, 2, and 4).

Theorem

There is no largest prime number and, in addition,

$$\int_{\Omega} \nabla u \cdot \nabla v = - \int_{\Omega} u \Delta v + \int_{\partial \Omega} u v n$$

Proof.

1. Suppose p were the largest prime number.
- 2.
- 3.
4. Thus $q + 1$ is also prime and greater than p . □

Theorem

There is no largest prime number and, in addition,

$$\int_{\Omega} \nabla u \cdot \nabla v = - \int_{\Omega} u \Delta v + \int_{\partial \Omega} u v n$$

Proof.

1. Suppose p were the largest prime number.
2. Let q be the product of the first p numbers.
4. Thus $q + 1$ is also prime and greater than p .

Theorem

There is no largest prime number and, in addition,

$$\int_{\Omega} \nabla u \cdot \nabla v = - \int_{\Omega} u \Delta v + \int_{\partial \Omega} u v n$$

Proof.

1. Suppose p were the largest prime number.
2. Let q be the product of the first p numbers.
3. Then $q + 1$ is not divisible by any of them.
4. Thus $q + 1$ is also prime and greater than p .

There is no largest prime number and, in addition,

$$\int_{\Omega} \nabla u \cdot \nabla v = - \int_{\Omega} u \Delta v + \int_{\partial \Omega} u \nu n$$

1. Suppose p were the largest prime number.
2. Let q be the product of the first p numbers.
3. Then $q + 1$ is not divisible by any of them.
4. Thus $q + 1$ is also prime and greater than p .

7

- ▶ The **first main message** of your talk in one or two lines.
 - ▶ The **second main message** of your talk in one or two lines.
 - ▶ Perhaps a **third message**, but not more than that.
-
- ▶ Outlook
 - ▶ Something you haven't solved.
 - ▶ Something else you haven't solved.
